MEMORANDUM FOR: Mr. Houston

25X1A5a1

SUBJECT : Copyright Clause in [] Study

1. Article 20, entitled "COPYRIGHTS," in the contract appears to be the standard Government copyright article. The copyright of this study in the name of [] is in accordance with usual Government policy founded on the desirability of disseminating knowledge and information. 25X1A5a1

25X1A5a1

2. When the [] contract was negotiated, I inserted a special copyright clause which I had drafted, giving the Government all rights to the studies and providing that the contractor could not take out a copyright or exercise any other rights of ownership in the study without specific Government permission. However, [] objected strongly to this provision, and, after consideration and discussion with the appropriate officials in the Agency, it was decided to insert the normal Government copyright clause.
